

COMIC CRAFT — AI COMIC STORY CREATOR USING GEMINI MODELS

AI COMIC STORY CREATOR USING GEMINI MODELS

Date	30 September 2026
Team ID	SWTID-2026-8849
Project Name	Comic Craft-AI
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability

The existing ComicCraft repository is organized into app services, utilities, templates, static assets and tests. The following assessment reflects the structure present in the supplied project.

S.No	Code Quality Parameter	Description / Evidence	Followed
1	Consistent Indentation	Python/HTML/CSS source follows a readable structure.	Yes / Review
2	Proper File Structure	app, services, utils, templates, static and tests are separated.	Yes
3	Meaningful Variable Names	Functions such as generate_outline, generate_story and build_comic_layout are descriptive.	Yes
4	Function / Method Names	Core operations are named by their purpose.	Yes
5	Code Comments	Documentation explains the implementation; code-level comments can be reviewed further.	Partial
6	Modular Design	AI, image, layout and export responsibilities are separated into modules.	Yes
7	No Redundant Code	Separate services reduce repeated responsibilities.	Yes / Review
8	Error Handling	routes.py uses try/except and HTTPException as documented.	Yes

Reusable Components / Modules

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	gemini_flash.py	Python	Generate five-panel outline	High
2	gemini_pro.py	Python	Generate narration/dialogue	High
3	image_generator.py	Python	Generate and save panel images	High
4	layout_builder.py	Python	Build structured comic layout	High
5	exporters.py	Python	Export comic to PDF	High
