Scalability & Future Plan

S.No	Area	Future Plan	Status
1	Cloud deployment	Move the local FastAPI service to a suitable cloud environment.	Future
2	Model optimization	Use optimized image-generation inference or hosted image services to reduce local GPU dependency.	Future
3	Storage	Introduce persistent storage for generated comics if user history is required.	Future
4	More layouts	Support additional comic page layouts and panel counts.	Future
5	Sharing	Add shareable links or additional export formats.	Future
6	Performance testing	Add load testing with measured response time, throughput and resource utilization.	Future

The future plan is derived from the existing application's local deployment and modular architecture; it does not replace any documented current feature.
